

# **Sportslink Swimlink Programme Explained**

- 1. Each child HAS to attend an assessment BEFORE they are offered a place in swimming lessons.**
- 2. Each child HAS to be a CURRENT member of Sportslink to partake in lessons.**
- 3. Each child has to be put onto the contact list at reception. Every time assessments are organised, the ENTIRE contact list will receive a text stating days/times of assessments.**
- 4. Members who come to the assessments will be assessed by one of the swimming instructors and is then contacted before the next term starts.**
- 5. Each child is offered a day, time and teacher for the term. The ONLY reasons a child is moved from one class to another is:**
  - Parent requests a day/time change due to external commitments**
  - Instructor feels the child is too advanced/behind the current class group**
- 6. Each level in the Swimlink Programme consists of 10 criteria points which a child HAS to complete to a high standard in order to pass the level and progress to the next level**
- 7. Once a child/class can complete all 10 criteria points to a high standard, the instructor can place an order with the Swim Co-Ordinator for the relevant certificates/badges**
